## About This Game

Protagon is a hybrid casual game designed from the ground up for the SteamVR experience. It blends concepts from mini-golf and pinball with an intuitive VR interface.

Just pull the handle on the ball, aim and release to launch it into the zero-gravity course! Can you make it under par? Each "hole" or level introduces new twists, obstacles and game mechanics to keep you challenged.

To complete your immersion in the unique world of Protagon, the game features hand-drawn background art by Iikka Keränen and awesome soundscapes created by Rich Carlson, both of the IGF award-winning *Digital Eel* development group, and original theme music by Sotiris Gougousis!
